Hey Gary,

These are the five things I mentioned yesterday. Have you spoken with ER about revising their package?

Hi Gary

Thanks for providing additional information about the subject request. If the lower transporter wasn't included in ER's original consent package, ER must submit a revised request. Please notify ER of this requirement asap so I can expedite the process for you.

Upon receipt of the revised request, I will need you to provide comments on the following:

1. technical need and appropriateness of the supplies or services;
2. reasonableness of the subcontract estimate;
3. types and quantities of proposed other direct costs;
4. skill level, labor mix, and direct labor hours to be expended; and
5. capabilities of the proposed subcontractor.

Please send your comments to Will for review and concurrence/non-concurrence.

Thanks again Gary!

Subject: FW: 1604 - Subcontract Consent Request for T&D; TO 0308

Hello Latrice/Will,

I have reviewed this subcontract consent package and I agree that this is the most favorable to the Government. We have located a lower cost transporter for this job and the cost for transportation will be lower than those provided herein. We would like to begin shipping this week so that we do not leave a stockpile over the Thanksgiving Holiday so I would appreciate it if we could get your approval.

Thanks

Gary Moore
